

MANUFACTURING ENGINEER (M/F/D)

 Kalsdorf bei
Graz

 Full-time
employee

19.10.2026

Engineering &
Technical

***Drive Innovation. Win Together. Shape
the Future of E-Mobility.***

**With the passion of our people, we
contribute to a sustainable future by
creating innovative products in e-
mobility for our customers.**

**Samsung SDI Battery Systems is a global technology leader
in e-mobility. Together with our customers in the automotive
industry, we develop, test and industrialize innovative
Lithium-Ion Battery packs for hybrid and electric vehicles.**

**The technology center of Samsung SDI Battery Systems is
located in Kalsdorf, Austria, close to Graz.**

Your core responsibilities are:

- Create production concepts for prototype and series production and align them with all relevant stakeholders.
- Evaluate battery pack concepts and engineering changes in terms of cost, timing, risk and quality.
- Collaborate with product development and design on manufacturability topics (DFM) and contribute to DFMEA / PFMEA
- Ensure production readiness for prototype build and coordinate and support prototype line setups.

Modern work environment in an
European technology center for
battery development and testing

>more about facility

Have a say and think differently. In a
team that lives the future.

**>more about working with
us**

Let's be social: This is where we can
connect:

- Prepare and align work instructions as well as layout and process planning.
- Coordinate and track the procurement of prototype equipment, tools and fixtures — from load sheet and specification creation through to acceptance and handover.
- Monitor and ensure achievement of cost, timing and quality targets along project milestones.
- Support series ramp-up and drive structured problem solving on process and equipment topics.

What you need is:

- Experience in automotive production planning is expected experience in an e-mobility environment is advantage (process and equipment planning concepts)
- FH or university degree — preferably in production engineering, automation technology or a comparable technical field
- Independent, self-responsible and target-oriented way of working
- Organizational talent with strong communication and team skills
- Flexibility, an open mind and resilience
- Very good English skills are required, good German skills are a plus

Our offer for you:

With regard to the Austrian Equal Treatment Act, we offer the following annual gross remuneration (full time/38.5 hours) as a basis for negotiations for this position: EUR 67.000,-

We also offer a market-standard overpayment depending on relevant work experience and qualifications.
